ISLAY VOLUNTEER NETWORK - On Islay, there is a network of volunteers set up to do shopping and collect medication for those who are self-isolating or have been told to isolate, or are over 70. Everyone should get a leaflet through their door.

When requested, volunteers will make contact with nominated people in isolation, with consent, and provide a friendly voice and offers of practical support.

Volunteers will be able to get groceries from Coop, and other shops, and organise for these groceries to be delivered and paid for etc, by a very small and dedicated team, utilising stringent hygiene techniques.

When requested, medication can be collected from your dispensing medical practice or Islay Pharmacy.

Frequent contact will be kept with those in isolation to ensure mental and physical wellbeing, by phone and other electronic means.

If you need volunteer help – please contact your area co-ordinator from the list below

If you wish to volunteer - please contact your area co-ordinator and instructions will be given. If you are formally volunteering or just helping out neighbours you should heed the advice at https://bit.ly/VOLUNTEERING_SAFELY

Islay Community Recovery Group

Islay Community Council has established the Islay Community Recovery Group (ICRG) to support Islay easing out of the Covid-19 lockdown.

Openness, transparency and goodwill are essential for the group to achieve its aims and to reassure the community that everyone is working safely together in this extraordinary time. It was agreed that a balance needs to be struck between the challenges of dealing with the fears that some islanders have about the opening up of Islay and the requirements for businesses to begin operating again.

ICRG will be a conduit for the transition of the community from resilience to economic, social and cultural recovery. And will work in accordance with the Scottish Government's guidelines for the phased easing of lockdown.

The group is exploring the installation of clear signage across the island reminding everyone of the requirements of social distancing, wearing face coverings and hand sanitizing.

In order to represent a wide cross-section of the community, a variety of people were invited by the Community Council to join – from the churches, estates, distilleries, tourism, farming and the health service. Islay Resilience Group, Islay Development Initiative, South Islay Development and the Emergency Planning Group are all represented too. Jura Community

Council also joined the meeting believing that the group would be touching on areas where Jura is also affected.

Pat McGrann, who chaired the first two meetings, thanked everyone for following the Scottish government's guidelines during lockdown and for the enormous effort across the island in supporting the community in this difficult time.

Minutes of ICRG meetings can be accessed on the Islay Community Council website. If you have any questions, concerns or suggestions please email Islay Community Council.

BRUICHLADDICH DISTILLERY (Facebook 16/9/20)

After careful consideration, it is clear there are significant operational and safety complications preventing the re-opening of the Bruichladdich visitor centre whilst the current COVID-19 restrictions remain in place. We are also mindful that our unique Islay operation is a full production site and is home to everything from distillation to maturation to bottling. Therefore, it's necessary to have our large team of 85 Laddie Crew on-site and the safety of our team and the community, followed by the on-going supply of our product remain the number one priority.

This inevitably means that we cannot offer an experience in line with our expectations or the expectations of those who have come to know what a visit to Bruichladdich should feel like. As such, sadly Bruichladdich remains closed to visitors for now. Whilst this is a disappointment for all of us, we can share the news that we will use this extended period of closure to carry out vital maintenance and renovation work to the visitor centre. This means, that when we open again in early Spring 2021, you will be welcomed back to fantastic new facilities and visitor experiences.

In the meantime, we will continue to run our Distillery website shop with all products and merchandise available and will also be launching an Islay "click & collect" service for those visiting Islay who wish to purchase items.

We look forward to seeing you again soon.

See also Islay Community Recovery Group (at top)

COMMUNITY NURSES (Facebook 21/2/20)

During the C19 outbreak your community nurses will be working predominantly from their cars to help reduce the risk of person to person transfer between their colleagues.

This means that you may see nurses parked up on their phones and laptops and having their meal breaks. Please don't make the assumption that they are skiving or have nothing to do. We cannot work from home and this is just another means of isolation to help reduce the risk of spreading this virus.

Facebook 6/8/20

Following the discussion on the Islay Community Noticeboard today regarding public information on positive Covid-19 testing, we thought it would be helpful to explain how the current system operates.

The majority of community testing is undertaken by the UK Government through a series of specialist laboratories located throughout the country. These are not part of the NHS and function completely separately from the testing which is done in Hospitals and GP surgeries. These test results are monitored nationally with any positive cases being immediately and comprehensively followed up by the Scottish Government 'Test & Protect' service.

This contact tracing is a joint effort between central Government and local Health Protection Teams. It is highly specialised and often the interpretation of a positive test is complex with many different factors to consider when deciding how significant a contact has been. Whilst local GPs would expect to be involved in this process, we are not in charge of it or the information which the 'Test & Protect' teams gather.

If you have been deemed a significant contact of a positive case, you will be contacted directly and given instruction on what to do next. If there is evidence of more widespread community transmission, this information would be made public by local Health Protection Teams and, if significant enough, the Scottish Government. We would always share this information on Social Media as soon as possible.

We work hard to ensure all formal communication from the practice is accurate, relevant and helpful with no bias or hidden agenda.

The most important thing we can all do to keep our community safe is continue to strictly follow the Government guidance on physical distancing, hand hygiene and isolation/testing. This can be found at www.NHSinform.scot/coronavirus

Patients are reminded they should not enter the practice if they have any symptoms of Coronavirus, even wearing a face covering. Instead, they must isolate at home and consult nhsinform.scot/coronavirus for further advice.

FEIS ILE (Facebook 20/1/21)

With deep regret we announce that this year's festival is cancelled.

We have discussed this with our distillery partners, and we have come to this decision together. We know you love the Fèis, and know many of you have questions, so we'd like to explain why we've made this decision now.

1. Large events

People make the Fèis, and people make Islay what it is - keeping everyone safe is our top priority. Even if travel to Islay is allowed, the ceilidhs, tastings and large events that make the Fèis what it is, will not be able to take place.

2. Why not postpone?

Our distillery partners are keen to keep to our May dates. Also, with the uncertainty of this pandemic, large events may still not be possible later in the year.

3. Planning

By now the Fèis Committee would usually have arranged and sold out all of our events, and the distilleries would have everything in place. With the current situation, we can't plan ahead as we don't know what Government guidelines might be. We also need to allow for the fact that people need to be able to make their plans to travel and stay.

4. Can we still come to Islay during Fèis week?

Our best advice is to follow what is happening with Government Guidelines and travel restrictions. Islay and its businesses would love to welcome you back when restrictions allow.

5. Can we come and get our festival bottles?

Bottle sales will likely be online only again this year. We know this worked brilliantly for some of you, and not so well for others, but we simply can't risk the large queues and gatherings of people. Distilleries will confirm details closer to the time.

5. Will you be holding a virtual festival?

Yes. And we are already planning for it to be bigger, better and more interactive than ever. We know it won't replace the real thing, but we hope that you'll be able to join us.

6. What about 2022?

The dates for the 2022 festival are from Friday the 27th of May to Saturday the 4th of June.

We will take the very best care of your loved ones and although it will be a difficult time for families and residents, we will give reassurance to residents and make them smile at least once every day! 😊. You can phone (01496 810 338) to ask after your loved one/to arrange a phonecall with them or keep in touch via email gortanvogie-management@argyll-bute.gov.uk

UPDATE 27/3/20 Shona Hutchinson - We all understand that for relatives not seeing them is causing anxiety and stress, and that you all want to be able to communicate with loved ones. I have been trying for a long time to get our IT department to help us have WIFI set up, linked to our 810600 number and had hoped this would be in place for Christmas as I had secured funding to pay for this. Unfortunately this didn't happen and have been chasing this since. Before I had to self isolate I had been in contact with IT, advising that this work needed to be done asap before we had to close the doors to next of kin. Unfortunately, this didn't happen.

I would be grateful if relatives would be patient with staff who are trying to care for your loved ones. We know you want to know all is well with your loved one, but staff have lots of priorities on their time caring for the individuals that are there. They have the added pressure of having to do all this without my physical support. Please be kind and understanding of the position my staff are in. They are doing their best in an unprecedented situation.

ISLAY BADMINTON ASSOCIATION (Facebook 1/9/20)

Islay Badminton Association will not be meeting at the start of the season in September due to the Covid guidelines.

We will be reviewing the situation between the Islay High School, Badminton Scotland and Argyll & Bute Council. If we are allowed to use the premises.

There will be a limit to the number of players when we return. This will be reviewed by our association before we recommence.

ISLAY BOOK FESTIVAL (Facebook 13/2/21)

We have reluctantly decided to cancel this year's event due to the continuing uncertainty over travel and other restrictions linked to the Covid pandemic.

We are not confident of being able to hold a physical festival towards the end of the summer and so have decided to cut our losses and cancel now.

And while we learnt a lot from our online programme last year, and are incredibly grateful for everyone's contributions and support from across the globe, our feeling is that live events on the island are really what our festival is all about and we don't want to move too far away from that.

We also feel there is no point trying to compete in a now very cluttered digital landscape.

However, we have decided instead to try and organise some one-off book events this year to support a couple of local publications coming out in May and June respectively. These events will most likely be held online over the summer months.

In the meantime, we'll be working away in the background on a future strategy for the festival and in particular to try to secure longer-term funding for our activities. We look forward to coming back with a bang in 2022!

ISLAY COTTAGES (Facebook 24/3/20)

KILHOMAN GALA COFFEE MORNING (Facebook 7/11/20)

As you may be aware, the Kilchoman Gala Coffee Morning was cancelled back in March, due to COVID. We still have some amazing raffle prizes, which were kindly donated by local businesses. Some raffle tickets were sold prior to cancellation of the event and we will still honour these, when we can rearrange. We have decided to see how things are in the new year before we set a new date and we will let you know as soon as possible.

Thank you for your continued support. Kilchoman Gala Team.

POSTAL DELIVERIES (Facebook 23/3/20)

FROM POSTAL WORKERS PAGE - So I'm a postie and would like to inform you some important information. We deliver your parcel and letters.

What you may not be aware of is we are classed as keyworkers through these terrible times.

The CWU have offered us to become an emergency service for the public. If things get worse your postie could be delivering healthcare products, food and even medication.

All that is asked from the public is:

1) Think about safety first, for yours and the postie.

2) If you see a postie coming towards your door please (DO NOT OPEN YOUR DOOR). We will sign your parcels and letters for you.

We will leave the parcel, food or medication on your doorstep and then knock. Give the postie enough time to step away from the door.

3) If you are already outside your house, go inside or step away 2 metres from your postie. Please do not approach your postie.

If we tell you to stop and back off or close your door, don't feel offended. We are only trying to help protect you from this virus.

(LET'S BEAT IT TOGETHER) please share this to let your family and friends know.

SCHOOLS (Facebook 11/3/21)

Phase 2 of the return as from 15th March – see <https://www.gov.scot/publications/coronavirus-covid-19-guidance-on-schools-reopening/>

Covid-19 testing – roll out to all secondary pupils

The roll out of the Covid testing with S4 to S6 pupils has gone well and we have had a very good uptake. The Scottish Government has now extended this offer to S1 – S3 pupils as well. A consent form has been emailed home, if you able to print this off at home and complete and sign it, your child can bring it in on their first day they come to school and they will be issued with a test kit. If you are not able to print off the consent form at home, we will issue a hard copy to your child to bring it back to you at the end of their first day and as soon as they bring it back in again we can issue the kit. Any pupils over 16 are able to sign the consent form themselves.

SCREEN MACHINE (Website 3/5/21)

The Scottish Government announcement on March 16 about its roadmap out of lockdown proposed 17 May as the date when cinemas may be able to reopen, which coincides with when they should open in England. We're therefore planning on the assumption that the Screen Machine will be able to resume touring in that week in May, and as soon as the Scottish Government confirms the date, we'll be ready to advertise our first dates and locations.
